

Donastar 15-Series Filters

For Scale; Chlorine, Taste, and Odor+

The Donastar 15-series filters are ideal for reducing scale, chlorine, taste, odor, cyst, and particulates, while inhibiting bacteria growth within the filter through bacteria static technology. This model type creates finely polished water for high-quality beverage and food applications, and delivers clean ice and beverages.

- Tested to NSF/ANSI 42 and 53 standards
- Available in multiple keys to fit either our proprietary manifold or Everpure and 3M/Cuno manifolds
